- Acrylic paint (orange, white, green, black, purple, yellow, red)
- Black craft foam

Instructions

Step 1: Paint jack-o-lantern pot

1. Begin by using the large paintbrush to paint the entire outside of the pot orange.
2. Now paint the top edge of the pot and the inside rim of the pot orange as well.
3. Once the **paint is dry** (about 20 minutes), use a pencil to draw a jack-o-lantern face on the side of the pot.
4. Fill in the pencil drawn lines with black paint using the small paintbrush.

Step 2: Paint ghost pot

1. Paint the pot white, in the same way you painted the jack-o-lantern pot.

Draw on two eyes and a mouth, then paint them with black.

Step 3: Paint Frankenstein pot

1. Paint the whole pot green and then add a zig zag pattern on the outside rim of the pot in black paint. Paint the inside rim black as well.
2. Draw the Frankenstein face with thick rectangle eyebrows, round eyes, a rounded line for the nose, and a mouth and scars with little vertical lines.

Paint the eyes white with little black pupils. Paint the rest of the features black.

Step 4: Paint black cat pot

1. Cut out small triangles from black craft foam for the cat's ears.
2. Paint the pot black, and add cats eyes, a little triangle nose, connected curved lines for a mouth, and whiskers.

Paint the eyes yellow, the nose purple, and the mouth and whiskers white. Add black vertical lines to the eyes for pupils.

Use tacky glue to attach the ears inside the rim of the pot.

Step 5: Paint vampire pot

1. Paint the pot purple. Then paint the pot rim black and add an upside down triangle for the widow's peak.

Draw two round eyes, thin eyebrows, a curved line for a nose, and a mouth. Add fangs and a small bowtie for his cape.

Paint the eyes and fangs white, adding black pupils. Paint the mouth, nose, and eyebrows black. Paint his bowtie a nice bright red.
2. Your Halloween clay pots are complete!
